MEMBERSHIP COORD:	JIM SHEETZ	K9OQO	739-7695

The MAY 11, 1987 meeting was called to order: At 7:00 pm by
President Jack Bibelow, KA9JOL. The meeting was held at
Roosevelt Jr. High School.

APPROVAL OF MINUTES: Minutes were read and approved.

TREASURER'S REPORT: (BALANCE) \$1568.80 AS OF MAY 28, 1987

***** THE NEXT MEETING WILL BE JUNE 15th *****

INFORMATIONAL ITEMS

1. Novice standby frequency of 28.400 MHZ was discussed. It has been suggested that this frequency be declared the FC-ARC frequency where members can contact each other and discuss club items of interest.
2. Bob Ronk, KB9IE discussed the fact that his repeater on 145.21 is linked to 224.50 MHZ. Novices may operate on the 224.50 side of the link to communicate with hams on the 145.21 section of the repeater system.
3. Constitution changes and revisions were discussed. These will be incorporated in the copies of the Constitution which will be discussed at the June meeting.
4. Meetings will be held during the summer months at Roosevelt Jr. High School at 7:00 PM on the third Monday of each month. Talk-in will be on the 145.15 repeater.

MISCELLANEOUS

1. The May program was presented by Andy Anderson and Pat Wiely. It was an interesting program regarding all types of addiction, and it's effect on all of us, not just those addicted. Following the program there was a social.

2. Amateur Radio operators (HAMS) provide a strong link in the program for tornado spotting in Wisconsin and across the nation. As a group of volunteers who have been trained to look for severe weather elements, you also have a unique communications system to supply the National Weather Service (NWS) with timely and very helpful information. For this effort, the NWS salutes all of you who participate. Each NWS Office in Wisconsin has a Ham base station located near Weather Operations during extreme weather situations. This Ham station serves as a link to a network of Hams located in various areas across the state. Thus, your first report is usually heard by the on duty forecaster, who in turn will release warnings and statements as needed. If you wish to take an active part in this Public Service function, contact:

5. Some of our Exam Team had the privilege of traveling to the Marinette-Menominee Radio Club to hold an exam session. This was the first exam session conducted for another club which was not part of a hamfest. This shows the Ham community some of the benefits of a large club. The testing session was set up by K08T who assisted with the testing. Members of our team were
