RALPH BALLINGER	N9ECS		

NEXT MEETING WILL BE MAY 21, 1990

PROGRAM WILL BE THE SOCIAL AFTER ELECTIONS.

RESPECTFULLY SUBMITTED,
HELEN BORREE WD9CYW
SECRETARY.

Another year has Past for the FCARC and it has been a busy and eventful year. We have been able to build upon the foundations that were established in years Past by gaining in membership and adding a few new ideas and twists to the club activities.

And the months seem to go by about twelve times faster. It seems that we get busy Planning for the regular monthly meeting and its time to start Planning for another. Every month hams are busy in their Personal world and every month many hams are involved in the world of ham radio.

Our club, like most I suppose, is made UP of People who are willing to give of themselves. When I have asked members for help on committees, or to be responsible for some other club function, few have said no. In fact on more than one occasion when help was needed, People came asking how they might help. Members this Past year have been very helpful in making suggestions about ways to make our club meetings more interesting and involved. Suggestions have been made regarding the hamfests, special events, and club Programs, and these ideas have been greatly appreciated. No one Person can lay claim to all of the good ideas, it is a GROUP effort, and we have had a good GROUP effort.

Making sure that there is a Program each month is probably the biggest challenge. People who might be willing to Put on a Program are usually busy People, quite often Putting on a Program somewhere else. Many of our club members have Put on Programs and they have been very well done. Feel free to make suggestions to any board member as to the type of Programs you would like. We have had a couple that were of a more technical nature but most have not been. What would you like to see more of.

Two new committees have been formed recently and I expect we will be hearing from them within the next few months. For one, the Budget Review committee will be making some suggestions for membership consideration soon. The other committee the Technical Assistance committee, made UP of experienced club members, may become a source of technical suggestions and advice for others. As these committees develop, you may have some input that will help define the direction of these groups.

Give some serious consideration to the Green Bay/Fox Cities Joint get-to-gether on June 2 in Green Bay. That's right, Bay Beach, a dish to Pass, bring your brats. This will give all of us a chance to get to know our friends to the north a little better. Listen for the announcement and details at the club meeting in May.

Be sure to Post your calender of club functions where you can find it. Feel free to tell me about dates that you think should be included. I'll update the sheet when it appears that we're running our of margins.

I for one am looking forward to another fun and eventful year. Keep active and involved. Feel free to make constructive suggestions to board members if you think we need to change our goals or direction. Remember, this is your club. We all have ownership and an opportunity to make it better.

MIKE (WB9BBI)
