HAL SIETH	NQ9F	PATTY NAIMON	KN2F

NEXT MEETING WILL BE OCT. 15th. 1990

RESPECTFULLY SUBMITTED,
HELEN BORREE WD9CYW
SECRETARY.

A great big thanks to all the hams and friends who attended the auction at the club meeting in September. All those in attendance, I am sure, had a good time and there were even a few bargains. As you might expect there were some pieces of equipment that were well used and lots of those typical odds and ends, but the evening was fun and a time for lots of good old fashioned socializing. I expect the third annual auction will attract even more as the tradition is carried on and as word spreads far and wide. Thanks Hal for helping with the auctioneering, and special thanks to Helen and Martha for doing such a fine job with the paper work.

Are you planning to attend the Oct. 15th meeting? The program is being presented by Wisconsin Electric and is called "SUPERCONDUCTIVITY". This should be an interesting topic and one that has received some press in recent months. Come early and find a spot in the front rows.

Boy the hamfest is nearly here. As you have noticed by now, I am sure, it is November 4th at the Starlight supper club north of the dog track near Kaukauna. Its time to sign up with the hamfest committee if you wish to be part of the club work force, and time to start rounding up that used gear to trade for some newer gear. At any rate there is a larger array of dealers this year than any in the past and arrangements have been made for lots of tables. The food situation should be greatly improved over last year so bring a healthy appetite. Please come and help support your club.

The annual dinner is slated for January 12 at the Columbus club in Appleton. We're trying to arrange some special activities for the program this year so be sure to write the date on your calendar. Social from 6 to 7 P.M. with dinner planned for 7:00 P.M. Another fine opportunity to spend a evening out supporting your radio club.

Just a reminder that the November meeting will be a week early because of deer hunting week. (or is it two?) The date is Nov 12 just in case you don't have your calendar handy. The program will be "FIBER FEVER" and presented by Wisconsin Bell. Another fine opportunity to hear a presentation on some current thinking and technology. Be sure to come with your questions and be prepared to take some notes.

Do you have any input as to materials for our library? ARRL has a very good list of videos and we plan to tap that resource soon but be thinking about books, tapes etc. that will help to make this club resource of greater value to us all. The library will be more accessible to all as of the Oct. meeting. We look forward to your input.

We'll have a good week and see you at the meeting on Monday evening the 15th.

Mike WB9EBI
