EARL ANDRE	KB9BSV	TERI LARKEE	KA9WCF

RESPECTFULLY SUBMITTED,  
HELEN BORREE WD9CYW  
SECRETARY

HAPPY November to all you fellow hams. Who says time doesn't fly when you're having fun. And from what I've heard lots of you hams out there are having fun talking to folks all over the world. I am still trying to get in touch with some friends in the southwest and haven't made the connection yet so it seems I've got a few things to learn, but I am having fun and time sure is flying.

A great big thanks to Tom Seidl for the fine presentation at the last club meeting on SUPER CONDUCTORS. His "down to basics and build from there" sure helped us all better understand the world of super conductors. I am sure we will be somewhat more tuned into articles on that topic as they appear in various Publications. Thank you Tom and WMPCC for spending the time and energy to help us become better informed.

The Program for the November meeting will be "Fiber Fever" Presented by Wisconsin Bell. The speakers bureau from Milwaukee is sending the Presenter here for the evening of the 12th. Please Plan to attend and think of those good questions we've become accustomed to hearing. Again, Please bring a friend or give some old ham friend a call and bring them along.

Also a reminder that the November meeting will be on the 2nd Monday as deer hunting season will be in full swing on the usual meeting night. The time and Place are as usual.

We're looking for contributors to the newsletter. If you have an article that you would like to see included, please set it to Helen by the end of the month. Please have it copy ready so there won't be any delay. Thanks.

Is there any interest in an UP Grade class. I guess I am thinking mainly about people who might be interested in getting together and working toward the General class license. If there are any of you who might be interested, lets get the ball rolling. We can meet at Madison Jr High again this year and work on code or theory or both. Just getting together puts the Pressure on a little bit and makes a Person dedicate oneself a little more, and thats all it takes. The second Novice class will start in January if you know of anyone who might be interested. We have just five weeks to go in the current session and are making some Progress, but the mortality rate has been Pretty high.

Well keep hammin folks. Its Great to see you from month to month at the meeting. Lets get in touch with some of our less active friends and bring them along to the meeting. Start thinking about the Christmas social on Dec. 17. Hope you all found some new stuff at the hamfest, and got rid of some of the old stuff and what did you think of the snow storm. Thanks Don.

Mike W9BBI
