Mikes final.

THAT'S ALL FOLKS. And thanks for the memories. For me, it has been an active and at times a busy two years. It has also been two years that have moved by very quickly and for the most part it has been fun being more actively involved.

A great big thanks to those members who were always there to take charge of certain events and a big thank you to those of you who were always there to pitch in however you could. Any club's success happens only when its members work together. No club revolves around any one person so to all of you I say THANK YOU. I often hoped for greater membership involvement in activities but realize its very difficult to have everyone involved in everything we do. Certain things we do, as a club, are appealing to a certain segment of the membership and other activities are appealing to others. In general, it seem, most of the membership was active at one time or other and what more should a person expect.

We've tried to have interesting programs and club events that add a little spice to our meetings. For the most part I think they were successful. Not all programs appeal to everyone so for those of you who would leave before the program began, I guess thats understandable. I sometimes wondered what the presenter thought. But we are all busy and often had other things to take care of and were just trying to cover two events in the same evening. This is always a problem for busy people.

The crossword puzzle this month should be a little easier. Most of the terms and abbreviations were taken from the "TUNE IN THE WORLD" novice study guide. The prizes for this month will be the world map we've had as door prizes the past few months. The first three completed and correct puzzles I receive will be the winners and will receive the maps at the meeting on Monday evening.

Plan to attend the annual meeting if possible. The Board and the Budget Review Committee have some ideas about improving our club as a service organization. We look for your ideas and suggestions. It appears that the recent hamfests have made it possible for us to consider the purchase of some equipment that will make us better prepared for local and national emergencies. Also with this equipment we should be better able to provide communications for some of the civic events in which we take part.

Thank you to all you fellow hams. I have gotten to know many of you better and have come to appreciate the fine fellowship and support we offer each other. We have a good club here and with your help and leadership it can only improve.

Mike, WB9BBI

SUGGESTED BYLAWS CHANGE...

In an effort to achieve greater membership input in club planning and evaluation, the board is making a recommendation to make an addition to the bylaws. We wish to include a statement that would allow for up to three "members at large" to become a part of the board. The members would be elected at the annual meeting and would serve for a term of 1 year. They would attend the regularly scheduled monthly meetings of the board and would be voting members.

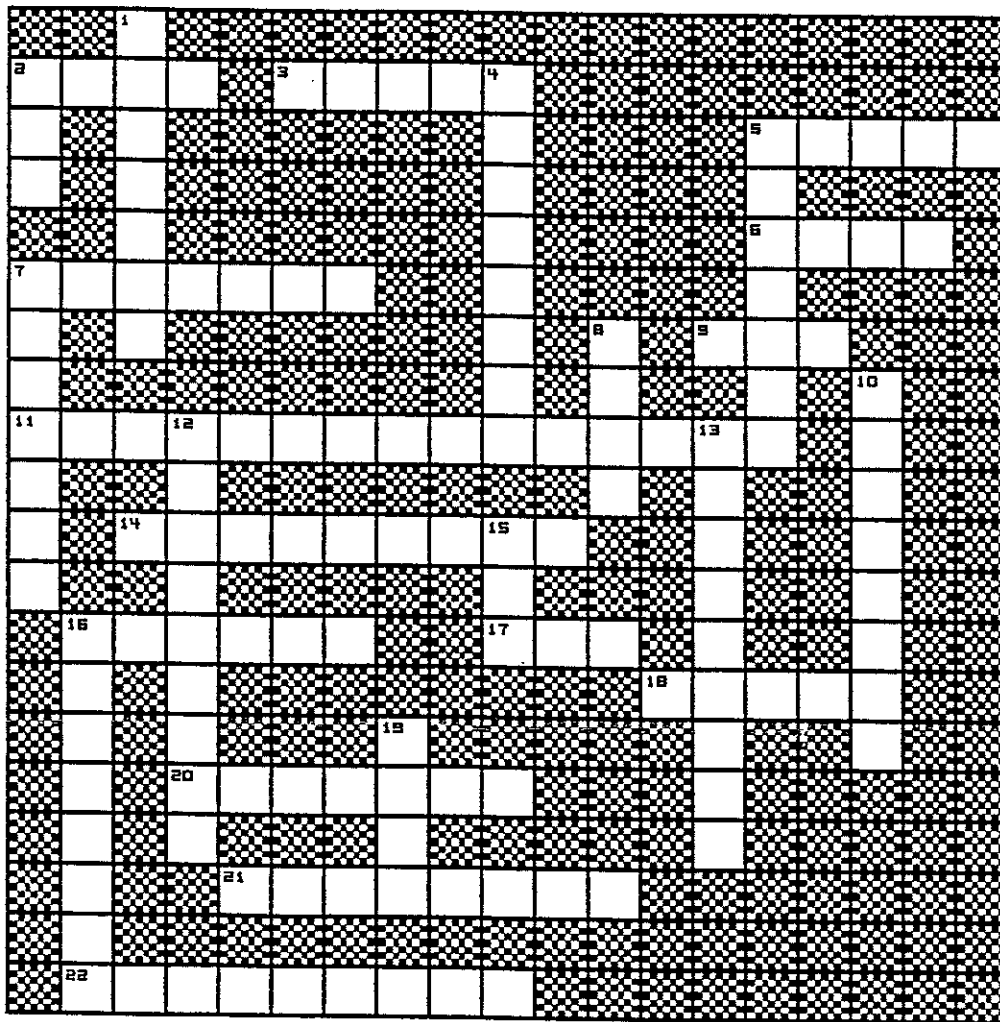

It is the intent of this addition to have greater membership input. Often board meetings are attended by less than the five board members. Ideas and membership concerns are therefore limited to the imagination and observations of a few. With eight members on the board we would have greater membership representation and additional ideas.

This action requires a 2/3 (two thirds) majority of the voting members present.

Give this some consideration before the annual meeting and be prepared to make a statement if you have strong feelings one way or the other. Also give some consideration to filling one of the slots should the proposed change take place.

Mike, WB9BBI
