If anyone is interested in classes this winter yet, you might consider getting a teaching manual and have the people interested in the class get a book and work on it. You could meet at the instructors house or make arrangements at someones house to study.

It isn't fair or considerate to expect the instructor of the fall classes to start right over again. After all he has given up one night a week for 11 weeks of his time to go back to school and teach another 2 1/2 hours. That person has helped for the first time this year. It has been made known that the classes have been in the fall of the year. If anyone is interested in classes other than at that time, why not become a "ELMER", and help these people. Help take part in things like this and other activities of the club. Everyone wants to be a member of the Club and get some recognition but very seldom if at all do they help out. After all you have the months of Feb., Mar., and April to teach a class.

Also there are other activities the Club helps out with. The Bago 100, Venetian Boat Parade, and the E.a.a and others. These dates are usually known 1 or 2 months ahead of time and a sign up sheet is sent around. Come on help out a little. Everybody expects something for nothing, That's not what Amateur Radio is about.

I understand it is a service to the community and others, besides being a hobby.

It would help if more would participate in the Club meetings. Come and meet the new Hams and discuss things at the meetings also. Not everyone works the 3-11 or 11-7 shifts which would prevent them from attending.

When it comes to helping out for Club activities, don't wait to be called. You can contact the person in charge of the function or activities. Do you read your newsletter to keep informed of these activities and dates. They are usually included in the letter. This may not be the Post Crescent or the New York Times, or the Wall Street Journal, But it is our way of informing you to what is going on. **READ IT** You may even remember the date of the meetings.

I do say **THANK YOU** to all of those who do participate and help out. But lets get more members to participate.

Thanks:

President: Karen Thorne WB9ZNA

AMATEUR RADIO NEWS RELEASE

For Immediate Release

THE FOUNDATION FOR AMATEUR RADIO, INC., a non-profit organization with headquarters in Washington, D.C., plans to administer forty-seven (47) scholarships for the academic year 1993 - 1994 to assist licensed Radio Amateurs. The Foundation, composed of fifty local area Amateur Radio Clubs, fully funds five of these scholarships with the income from grants and its annual Hamfest. The remaining forty-two (42) are administered by the Foundation without cost to the various donors.

Licensed Radio Amateurs may compete for these awards if they plan to pursue a full-time course of studies beyond high school and are enrolled in or have been accepted for enrollment at an accredited university, college or technical school. The awards range from \$500 to \$2000 with preference given in some cases to residents of specified geographical areas or the pursuit of certain study programs. Clubs are encouraged to announce these opportunities at their meetings, on their nets, during training classes, and in their club newsletters.

Additional information and an application form can be requested by letter or QSL card, postmarked prior to April 30, 1993 from:

FAR Scholarships
6903 Rhode Island Avenue
College Park, MD 20740

The Foundation for Amateur Radio, incorporated in the District of Columbia, is an exempt organization under Section 501(c)(3) of the Internal Revenue Code of 1954. It is devoted exclusively to promoting the interests of Amateur Radio and those scientific, literary and educational pursuits that advance the purpose of the Amateur Radio Service.

I WAS MOBILE ONE TIME WHEN A CALL FOR DIRECTIONS CAME ON MY 2 METER, WANTING TO KNOW HOW TO GET TO HIS MOTEL A FEW TOWNS OVER. AFTER TELLING ME WHERE HE WAS, I STARTING TO GIVE DIRECTIONS LIKE THIS: KEEP GOING THE SAME WAY YOU ARE, TRAVELING AT 50 MPH. YOU SHOULD BE SEEING A SCHOOL ON YOUR LEFT ABOUT NOW. HE CAME BACK AND TOLD ME I WAS RIGHT ON.

AFTER SOME SMALL TALK, I TOLD HIM HE WOULD BE TURNING RIGHT AT THE MAJOR INTERSECTION HE WAS APPROACHING AND TO CONTINUE PAST A SHOPPING MALL. WHEN HE CAME AROUND TO TELL ME HE WAS PASSING THE MALL, I CAME BACK AND SAYING, "YOU MUST BE GOING FASTER THAN 50 MPH, BECAUSE YOU SHOULDN'T HAVE REACHED IT YET, BUT TURN ONTO 90 WEST."

SURE ENOUGH, HE TOLD ME HE WAS DOING ABOUT 55 MPH AND COULDN'T GET OVER MY ACURACY.

DIRECTIONS CONTINUED LIKE THIS ALL THE WAY TILL I FOLLOWED HIM TO THE PARKING LOT. THIS IS WHEN I PULLED IN NEXT TO HIM AND TOLD HIM THAT I HAD BEEN FOLLOWING HIM THE ENTIRE WAY.....

CONGRATULATIONS

TO THESE NEW HAMS, WHO GOT NEW LICENSES THREW THE EDUCATIONS COMMITTEE'S CLASSES..
